

P365

Continue engaging with your customers beyond sales

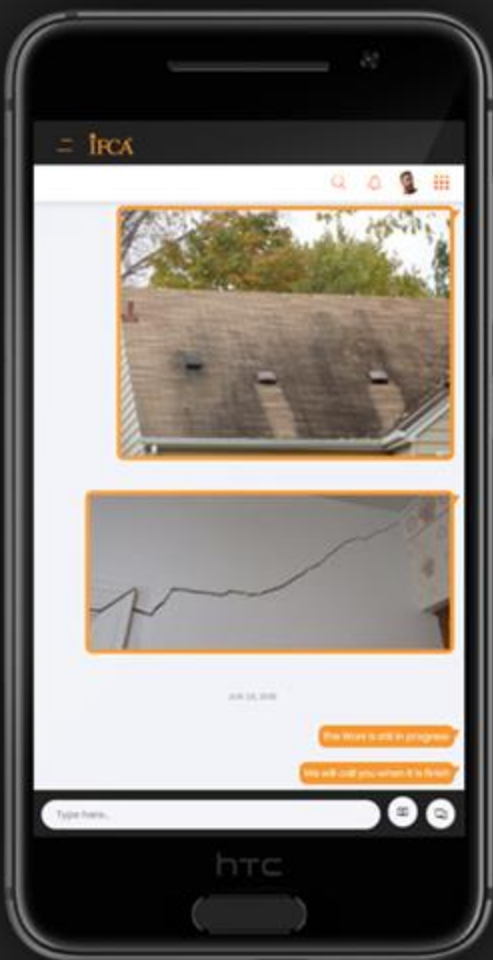

Connecting with your customers and keeping them happy is a priority, although it can be tedious and time-consuming at times. This is where **P365 Property Sales** can help you.

Our mobile solutions effectively connect you with your customers through the use of self-service tools which can be accessed anytime, anywhere.

DEFECT TRACKING APP

Manage defect tracking more efficiently

All your customers need to do is snap a picture of the defect and submit it together with relevant details through the app and it will be assigned to your site supervisors or contractors.

Work statuses can also be updated and monitored by your purchasers via the app.

PURCHASER APP

Keep your customers in the know

This is a convenient tool for your customers to keep track of the status of their purchased unit such as the project's development progress, payments due, key collection dates and more. Plus, you will be able to update your customers on your latest project launches and they can easily share the information with their family and friends via their mobile device.

Connect easily with your customers today via our mobile solutions!
