## Methodology

This is a list of 1,000 high-growth companies in the Asia-Pacific region, ranked by their compound annual growth in revenues between 2013 and 2016.

Although the search was extensive, the ranking does not claim to be complete, as some companies did not want to make

post, email and telephone.

The project was advertised online and in print, allowing all eligible companies to register via the websites created by Statista and the Financial Times. The application phase ran from August 14 to November 15 2017.

The revenue figures submitted

## Criteria for inclusion

To be included in the list, a company had to meet the following criteria:

- Revenue of at least \$100,000 generated in 2013 (or currency value equivalent as of December 31 2013)
- Revenue of at least \$1m generated in 2016 (or currency value equivalent as of December 31 2016)

2013 and 2016 was primarily (ie "internally" generated)

- If a company is listed on a exchange, its share price has fallen 25 per cent or more in 12 months.

## Calculation of growth rates

The calculation of company

**CONGRATULATIONS! YOUR COMPANY HAS BEEN AWARDED!**

**Innovative and high-growing companies are the driving force of Asian-Pacific economies in the 21st century.**
